

Pre-approval for Course Work Taken at Another College or University

Current IUP students are able to use credits from coursework taken at other accredited colleges and universities toward their degree requirements at IUP. The procedure for transferring these credits is now electronic through IUP's iForms.

To access the form, follow these steps:

1. Go to www.iup.edu/registrar
2. Click "How To" on the left menu
3. Click "Pre-Approval for Coursework at Another College or University"

You will receive email notification through every step of the approval process. If you need to make changes to the form, you will receive an email from the Transfer Services Office letting you know about corrections. The form will be available to you online if you need a copy.
